Among those who called was Henry W. Cornell, the son of Alonzo B. Cornell, who was New York's Republican Governor from January, 1882, to December 31, 1882. Mr. Cornell is one grandson of Ezra Cornell, founder of Cornell University. He, like his father, has always been a Republican.

When Mark Hanna reached town one of the first men with whom he conferred was the ex-Governor. They sat on a sofa at the Waldorf and talked of the situation, national and State. The conversation lasted for a half hour, and Mr. Hanna seemed pleased that the ex-Governor was going to take an active interest in the coming

Thurber Opposed to Gold.

Hailey, Idaho, July 23, 1896. My Dear Mr. Cornell-Your esteemed favor of the 15th instant at hand. I am in this tilver movement heart and soul. I verily believe that Bryan and Sewall will win in this fight. It is an uprising of the people against oppression, and an attempt to place bor of Europe is in; it is a fight between the owners of vested capital and the owners of property other than evidences of indebtedness, and the wage-carners; and in the long run the majority must win. The hot iron of gold has entered into the pockets of the many, and burned very large holes therein, and therefore they speak feelingly, and no specious arguments emanating from that side can have any effect on them, only to make the average man more tenacious of his own opinion that he is right; and I think the result in November will open the eyes of the Republicans that want to give manufacturers protection and demon H. K. THURBER. Mr. Teall said yesterday:

"The number of Republicans who are going to vote for Bryan and Sewall cannot be estimated. They come in here, wish us well and go out. Where one comes in he speaks of others that he knows will vote the same way."

A prominent man, whose name is at present withheld by Secretary Bayard, sald yesterday that he would wager \$1,000 to \$10,000 that McKinley would not carry Ohio. Hanna has been claiming the State by 200,000 majority, but nobody at Republican hendquarters cared to take the wager.

Betting Very Light. Betting so far has been very light, but nobody cares to give any odds on the general result. A few small wagers have been made. Whenever McKinley money flashes, however, there is Bryan money to cover it. All arrangements for the Notification Committee have been made and the affair will be a greater demonstration than the Cleveland notification in 1888. No tickets of admission will be required. The only tickets will be for reserved seats. The 6,500 reserved seats and 2,500 chairs will be brought into use, making 9,000 reserved seats. Each of the thirty-five district organizations of Tammany will receive 100 seats each. No seats will be reserved after

SENATOR JONES NEVER SAID IT!

I am not prepared to believe that Senator Jones was quoted correctly. The election of McKinley would mean not only four years more of

Shermanism and Clevelandism, but also many additional and cumula-
